TP9 : Pipeline as Code avec Jenkins (Jenkinsfile, agents Docker, Multibranch)

Partie 1 : Premier pipeline depuis le dépôt :

1. Ajouter le script de lint dans package.json

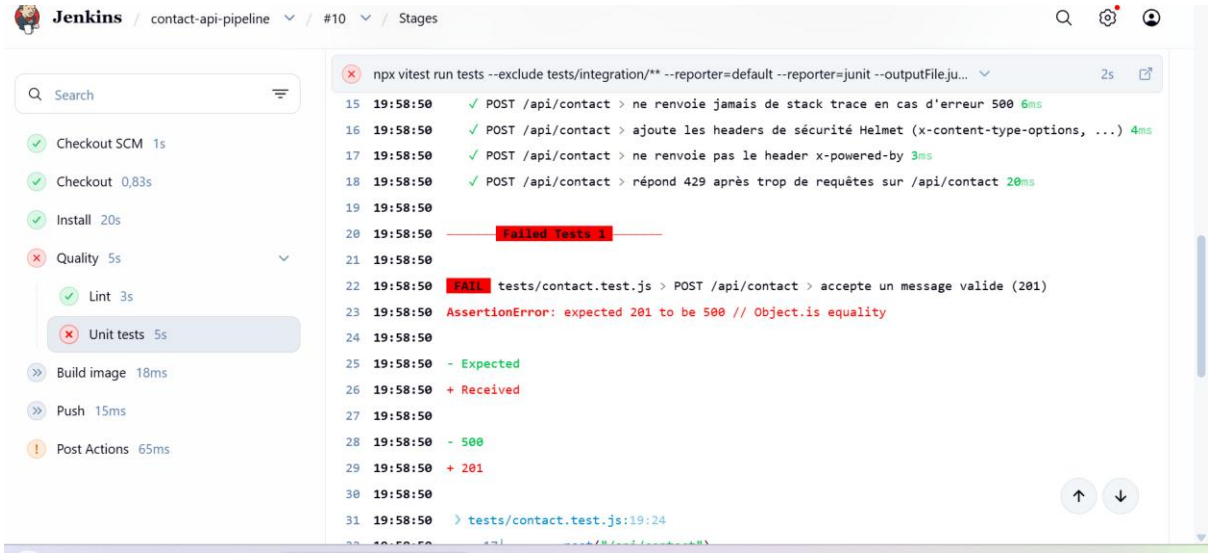

```
arij@vagrant:~$ cp -r api-starter/. tp9-jenkins/
arij@vagrant:~$ cd tp9-jenkins
arij@vagrant:~/tp9-jenkins$ ls -l
total 116
-rw-r--r--   1 arij arij   438 nov.   4 16:54 compose.yaml
drwxrwxr-x   3 arij arij  4096 nov.   4 16:54 coverage
-rw-rw-r--   1 arij arij  3215 nov.   4 16:49 Jenkinsfile
drwxrwxr-x   2 arij arij  4096 nov.   4 16:54 migrations
drwxrwxr-x 193 arij arij  4096 nov.   4 16:54 node_modules
-rw-r--r--   1 arij arij   802 nov.   4 16:54 package.json
-rw-rw-r--   1 arij arij 85061 nov.   4 16:54 package-lock.json
drwxrwxr-x   6 arij arij  4096 nov.   4 16:54 src
drwxrwxr-x   3 arij arij  4096 nov.   4 16:54 tests
arij@vagrant:~/tp9-jenkins$ npm pkg set scripts.lint="node --check src/**/*.js"
arij@vagrant:~/tp9-jenkins$
```

2. Créer le job dans Jenkins et lancer le build :

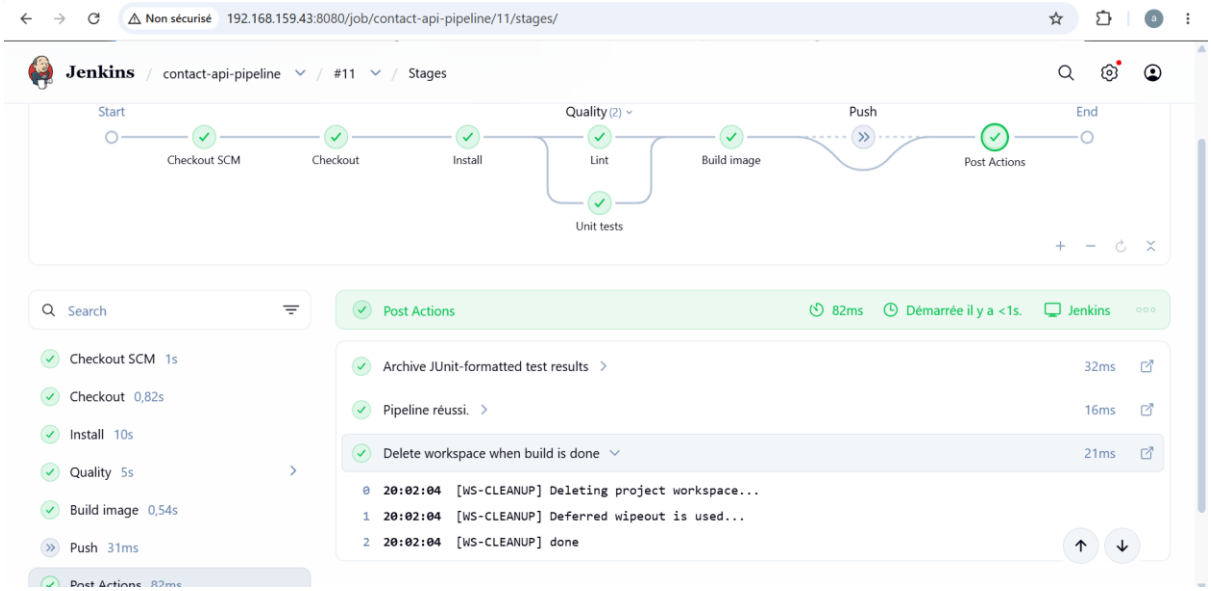

Partie 2 : Agents Docker, parallélisme et rapports :

1. Faire échouer un test volontairement

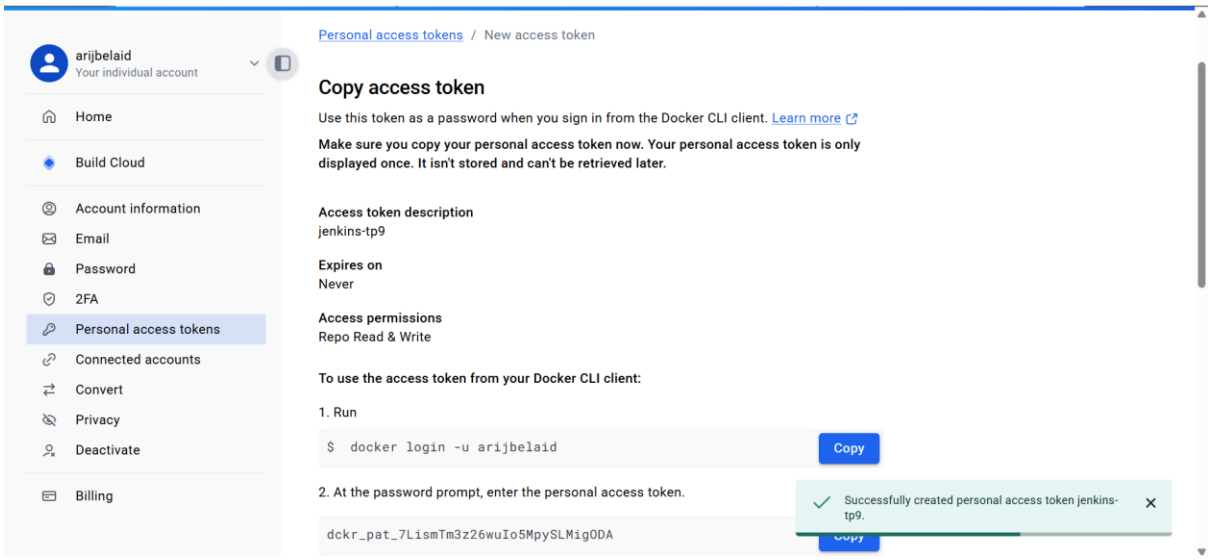

2. Réparer le test :

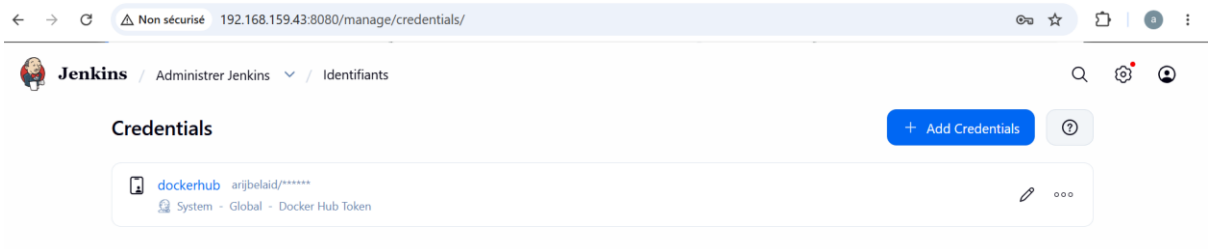

Partie 3 : Image tagguée avec le Git SHA, credentials et push

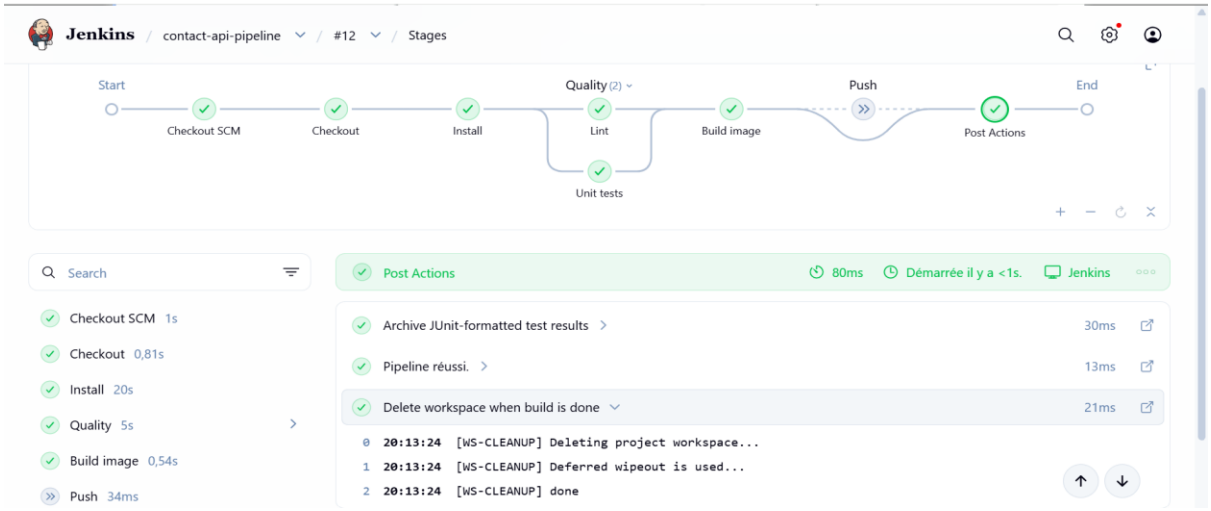

1. Générer un Token d'accès sur Docker Hub :

2. Ajouter le Credential dans Jenkins

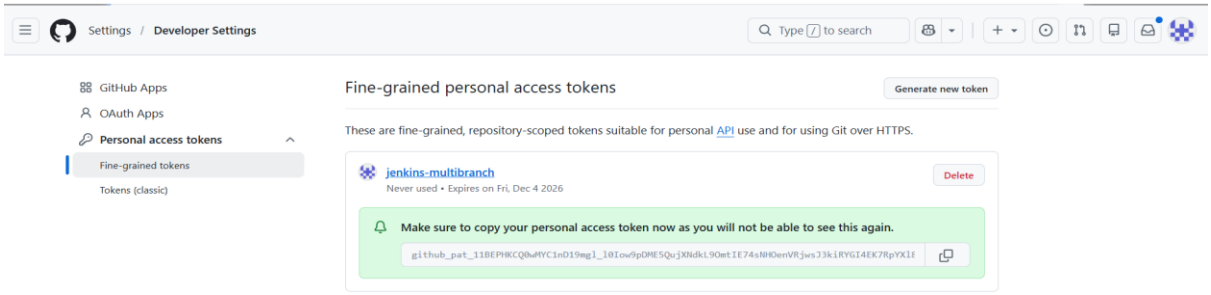

3. Relancer le build

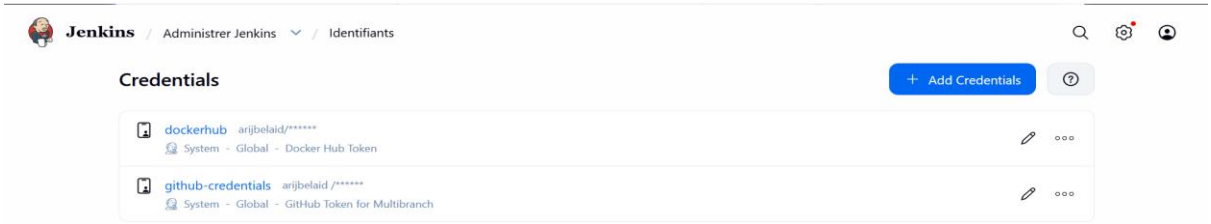

Partie 4 : Multibranch Pipeline

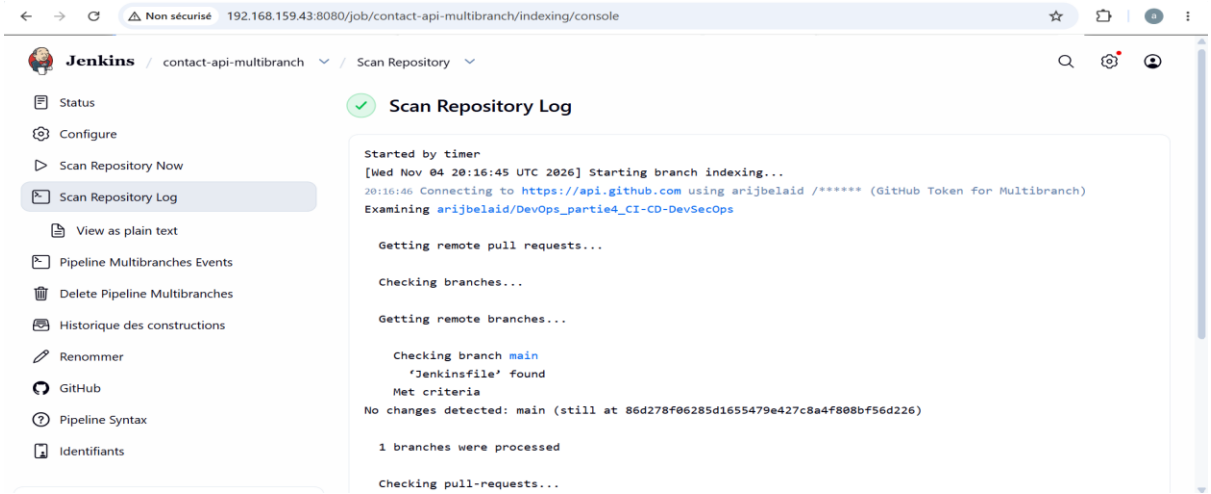

1. Créer le Credential GitHub dans Jenkins

Ajouter dans Jenkins :

2. Créer le job Multibranch

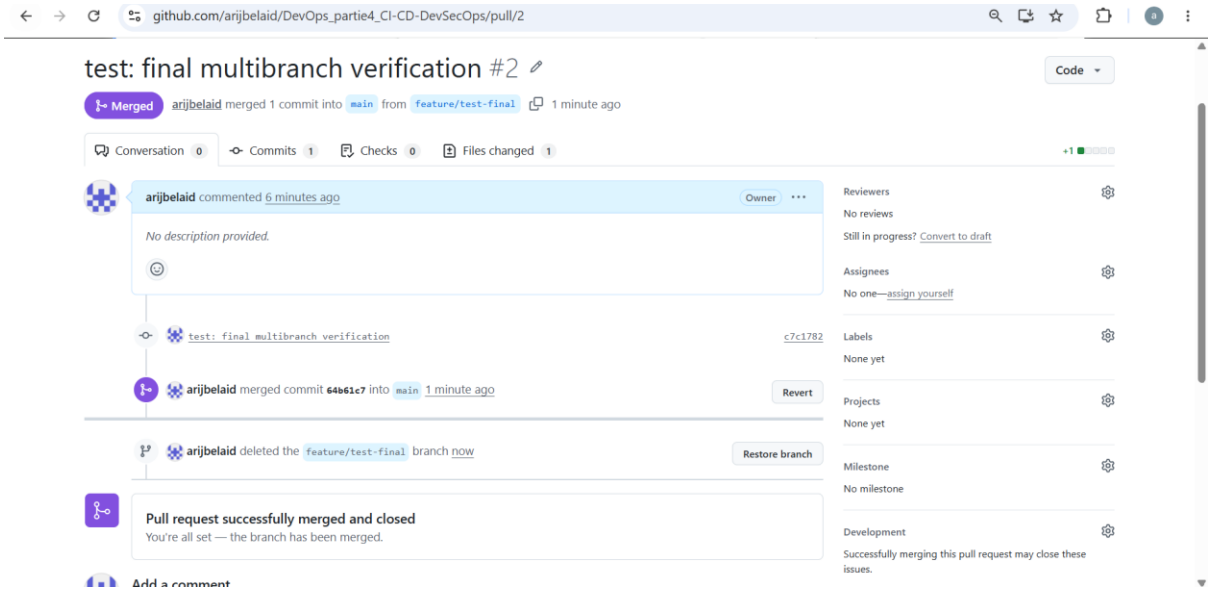

3.Creer une branch :

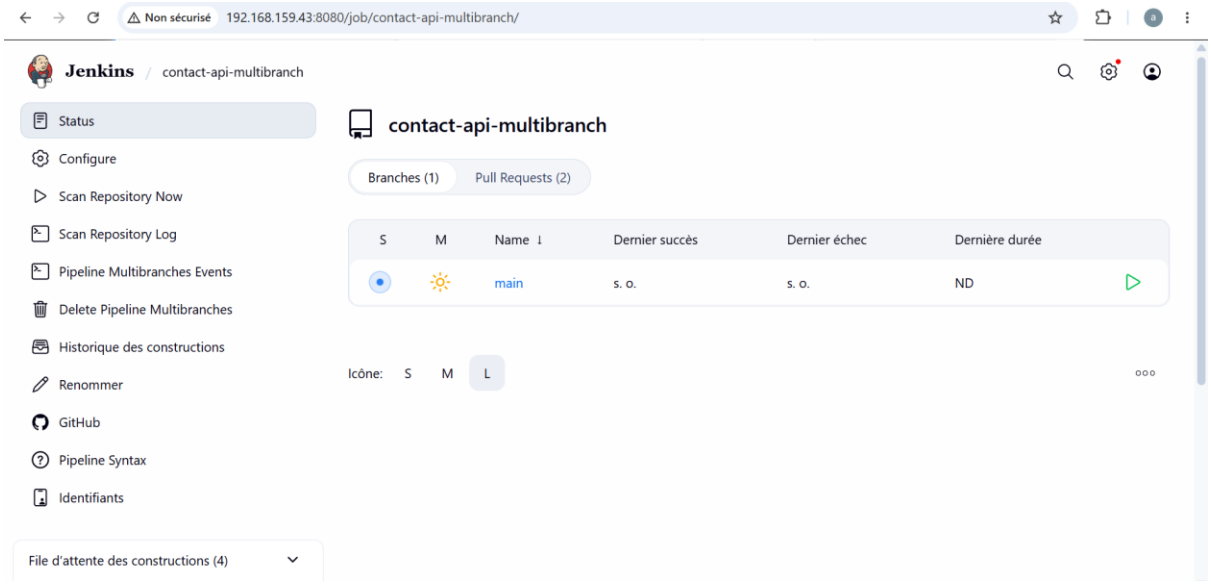

```
arij@vagrant:~/tp9-jenkins$ cd ~/tp9-jenkins
git checkout -b feature/rate-limit-config

arij@vagrant:~/tp9-jenkins$ git add src/app.js
arij@vagrant:~/tp9-jenkins$ git commit -m "feat: test multibranch pipeline"
[feature/rate-limit-config fcfe432] feat: test multibranch pipeline
 1 file changed, 1 insertion(+)
arij@vagrant:~/tp9-jenkins$ git push origin feature/rate-limit-config
Enumerating objects: 7, done.

To github.com:arijbelaid/DevOps_partie4_CI-CD-DevSecOps.git
 * [new branch]      feature/rate-limit-config -> feature/rate-limit-config
arij@vagrant:~/tp9-jenkins$
```

4.faire merge

5.Tester le stage Push sur la branche

6.Vérification :
